

CORMACH NEWS N°17 OF SEPTEMBER, 1st 2011

HOW TO SAVE TIME INFLATING TRUCK TYRES?

WE HAVE THE SOLUTION!

Sometimes it is hard to inflate tubeless tyres because of a large gap between the tyre bead and the wheel rim.

The bead booster injects a blast of air and fills the gap which immediately lifts and sets the bead.

Thanks to this inflating tool you will operate on heavy tubeless tyres without any problems, saving a lot of time.

Available with tank capacity of 20 lt and 40 lt.

Contact us for more information and discover the prices.
