

NEW WHEEL BALANCER CB 380

As a result of accurate researches carried out by our technical team, we now introduce the new wheel balancer **CB 380** which replaces the model CB 360.

The intuitive use of this machine simplifies the work, allowing to faster operate with a reliable and advanced wheel balancer.

What's new in this wheel balancer ? **EVERYTHING !**

- Shaft diameter increased to 40 mm
- Larger wheel cover which allows to operate on big dimensions tyres
- Maximum wheel weight to 70 Kg instead of 65 Kg
- 7 programs instead of 5 for alloy rims, two of which are ALU SPECIAL (Shift Planes)
- Hidden weight program to divide the wheel weights behind the spokes of the rim
- Dynamic and ALU MOTO balancing programs for motorcycle tyres
- Split weight program to divide the weight into two equivalent values placed on either sides of the spoke
